Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 4/20/05 has been entered.

Reasons For Allowance

Claims 1-45 have been allowed over the prior art.

The following is an examiner's statement of reasons for allowance: forming nanoclusters over the substrate; depositing an oxidation barrier layer over the nanoclusters; patterning to form a first area and a second area, the first area including the oxidation barrier layer and the nanoclusters over the substrate, and the second area having the oxidation barrier layer and the nanoclusters removed; forming a second dielectric over the second area subsequent to the patterning; and removing at least a portion of the oxidation barrier layer from the first area, wherein the removing the at least a portion at least reduces a thickness of the oxidation barrier layer..
